**RE: KOMATSU FUEL SPECIFICATION**

Dear Sir,

This letter serves to confirm that Komatsu specifies diesel fuel to be used in any of the Komatsu products be compliant to ASTM D975 No. 2-D. Further specification and clarification can be found in the relevant machine's Operation and Maintenance Manual.

Komatsu strongly recommends the use of fuel with particle counts less than the ISO 4406 code of 18/16/13.

Yours faithfully

**JOHAN DU TOIT**
