2015 -04- 2 0

XCMG Africa (Pty) Ltd has installed the Duo-Aqua Trap filters in a variety of our Mobile Cranes as well as the 18t Wheel Loaders, with great success.

These filters were also supplied and installed in XCMG cranes in the DRC, with no negative feedback or report.

XCMG Africa (Pty) Ltd is not in the position to evaluate these filters on a scientific scale, but are confident that the Duo-Aqua Trap filters are not prone to collapse as with paper filters and have a greater filter range.

We will recommend the use of iCerMax on-board filters in our equipment, as it will prolong the engine life, service intervals and cut down on unnecessary down-time.

XCMG Africa (Pty) Ltd, will therefore allow fitment to our engines without affecting the warranty, provided does not affect the normal operation of the engine in any way or interfere with the normal operation of the engine or its components. This will include the excessive reduction of fuel pressure, which is critical for the correct operation of the engine.

It is important to note that the Duo-Aqua Trap fuel filter will not replace the OEM fuel filter and the exclusion of the latter will not be allowed.

Trusting this meets with your approval

 Gerhard Bekker
 Customer and Product Support Manager

Lifting Machinery:

- All Terrain Truck Cranes
- Mobile Truck Cranes
- Crawler Cranes

Compaction Machinery:

- Vibratory Compactors
- Vibratory Asphalt
- Pneumatic Compactors

Earthmoving Machinery:

- Wheel Loaders
- Motor Graders
- Crawler Bulldozers
- Excavators
- Wheel Loaders
- Backhoe Loaders

Road Surface Machinery:

- Asphalt Concrete Pavers
- Asphalt Plants
- Cold Milling Machines
- Soil Stabilisers

Mining Machinery:

- Wheel Loaders
- Motor Graders
- Crawler Bulldozers
- Scrapers
- Dump Trucks
